January Creation Challenge: “Turning Down the Heat”

Clothing -Wear layers of clothing in your home. Start with a pair of warm socks and slippers, add comfortable and warm pants, undershirts, a long-sleeved shirt and a sweater. Layers can be added or removed as you get cold or warm. A head covering can make a big difference as well. There are very fashionable options available.

Use a throw blanket as you sit in your home.

Throw on an extra blanket for sleeping overnight.

These are a few ways you can you keep the thermostat down to 65 – 68 degrees when you are at home and 60 or lower overnight or when you are away.
